### Marine Chemistry, Vol. 41 (1993)

#### SPECIAL ISSUE

<i>Publisher's note</i> . . . . .	1
<i>Editorial</i> . . . . .	3
<i>Steering Committee Overview</i>	
Measurement of dissolved organic carbon and nitrogen in natural waters: Workshop report	
J.I. Hedges (Co-chair; Seattle, WA, USA) and J. Farrington (Co-chair; Woods Hole, MA, USA) . . . . .	5
<i>Subgroup Reports</i>	
DOC subgroup report	
P.J. leB Williams (Chair; Menai Bridge, UK) and J. Bauer (Rapporteur; Tallahassee, FL, USA) . . . . .	11
DON subgroup report	
C. Hopkinson (Chair; Woods Hole, MA, USA) and L. Cifuentes (Rapporteur; College Station, TX, USA) . . . . .	23
Procedures subgroup report	
J.H. Sharp (Chair; Lewes, DE, USA) and E.T. Peltzer (Rapporteur; Woods Hole, MA, USA) . . . . .	37
Mechanisms subgroup report	
E.M. Perdue (Chair; Atlanta, GA, USA) and F. Mantoura (Rapporteur; Plymouth, UK) . . . . .	51
<i>Background Papers</i>	
Dissolved organic carbon methods: a critical review	
P.J. Wangersky (Halifax, N.S., Canada) . . . . .	61
Heterogeneous catalyst structure and function: review and implications for the analysis of dissolved organic carbon and nitrogen in natural waters	
J.E. Bauer (Tallahassee, FL, USA), M.L. Ocelli (Atlanta, GA, USA), P.M. Williams (La Jolla, CA, USA) and P.C. McCaslin (Brea, CA, USA) . . . . .	75
The free-radical chemistry of persulfate-based total organic carbon analyzers	
G.R. Peyton (Champaign, IL, USA) . . . . .	91
How the nature of dissolved organic matter might affect the analysis of dissolved organic carbon	
C. Lee (Stony Brook, NY, USA) and S.M. Henrichs (Fairbanks, AK, USA) . . . . .	105
Comparative analyses of DOC and DON in natural waters	
J.I. Hedges, B.A. Bergamaschi (Seattle, WA, USA) and R. Benner (Port Aransas, TX, USA) . . . . .	121
<i>Data Reports</i>	
Dissolved organic carbon in marine pore waters: a comparison of three oxidation methods	
M.J. Alperin and C.S. Martens (Chapel Hill, NC, USA) . . . . .	135
Sea-trials of three different methods for measuring non-volatile dissolved organic carbon in seawater during the JGOFS North Atlantic pilot study	
H.J.W. de Baar, C. Brussaard, J. Hegeman, J. Schijf and M.H.C. Stoll (Den Burg, Netherlands) . . . . .	145
A critical evaluation of the analytical blank associated with DOC measurements by high-temperature catalytic oxidation	
R. Benner and M. Strom (Port Aransas, TX, USA) . . . . .	153
A test of the accuracy of freshwater DOC measurements by high-temperature catalytic oxidation and UV-promoted persulfate oxidation	
R. Benner (Port Aransas, TX, USA) and J.I. Hedges (Seattle, WA, USA) . . . . .	161
High-temperature combustion analysis of dissolved organic carbon produced in phytoplankton cultures	
W. Chen and P.J. Wangersky (Halifax, N.S., Canada) . . . . .	167
Fluorescence contouring analysis of DOC Intercalibration Experiment samples: a comparison of techniques	
P.G. Coble (Seattle, WA, USA), C.A. Schultz and K. Mopper (Pullman, WA, USA) . . . . .	173
Notes on the JGOFS North Atlantic Bloom Experiment 1—dissolved organic carbon intercomparison	
S.E. Fitzwater and J.H. Martin (Moss Landing, CA, USA) . . . . .	179

Platinum-catalyzed combustion of DOC in sealed tubes for stable isotopic analysis B. Fry, S. Saupe, M. Hullar and B.J. Peterson (Woods Hole, MA, USA) . . . . .	187
Results and observations from the measurement of DOC and DON in seawater using a high-temperature catalytic oxidation technique D.A. Hansell (Santa Cruz, CA, USA) . . . . .	195
Total dissolved nitrogen and phosphorus concentrations at US-JGOFS Station ALOHA: Redfield reconciliation D.M. Karl, G. Tien, J. Dore and C.D. Winn (Honolulu, HI, USA) . . . . .	203
Total dissolved nitrogen in the Northern North Pacific assessed by a high-temperature combustion method I. Koike and L. Tupas (Tokyo, Japan) . . . . .	209
Shipboard investigation of DOC in the NE Atlantic using platinum-based catalysts in a Shimadzu TOC-500 HTCO analyser A.E.J. Miller, R.F.C. Mantoura (Plymouth, UK) and M.R. Preston (Liverpool, UK) . . . . .	215
Preliminary study of DOC in the Tamar Estuary, UK, using UV-persulphate and HTCO techniques A.E.J. Miller, R.F.C. Mantoura (Plymouth, UK), Y. Suzuki (Tsukuba, Japan) and M.R. Preston (Liverpool, UK) . . . . .	223
Fluorescence as a possible tool for studying the nature and water column distribution of DOC components K. Mopper and C.A. Schultz (Pullman, WA, USA) . . . . .	229
Filtration of water samples for DOC studies B. Norrman (Umeå, Sweden) . . . . .	239
Some practical aspects of measuring DOC – sampling artifacts and analytical problems with marine samples E.T. Peltzer (Woods Hole, MA, USA) and P.G. Brewer (Pacific Grove, CA, USA) . . . . .	243
A comparison of dissolved organic carbon in North Atlantic Ocean nearshore waters by high temperature combustion and wet chemical oxidation J.H. Sharp (Lewes, DE, USA), Y. Suzuki (Tsukuba, Japan) and W.L. Munday (Columbia, MD, USA) . . . . .	253
Three vertical profiles of dissolved organic carbon in the North Pacific E. Tanoue (Tsukuba, Japan) . . . . .	261
Comparison of TOC concentrations by persulphate-UV and high-temperature catalytic oxidation techniques in the Marmara and Black Seas S. Tugrul (Erdemli, Turkey) . . . . .	265
Report on DOC and DON measurements made at Scripps Institution of Oceanography, 1988–1991 P.M. Williams, J.E. Bauer, K.J. Robertson, D.M. Wolgast and M.L. Occelli (La Jolla, CA, USA) . . . . .	271
DOC/DON Workshop subgroups, instrument demonstrators and assistant rapporteurs . . . . .	283
Acknowledgments . . . . .	285
On the measurement of DOC and DON in seawater Y. Suzuki (Tsukuba, Japan) . . . . .	287
Comments from the Editors on the Suzuki statement J. Hedges, C. Lee and P.J. Wangersky (Seattle, WA, USA) . . . . .	289
<i>Editorial</i> . . . . .	i
 <i>Research Papers</i>	
Influences of $T$ , $S$ and $P_{CO_2}$ on the pseudo-homogeneous precipitation of $CaCO_3$ from seawater: implications for whiting formation J.W. Morse and S. He (College Station, TX, USA) . . . . .	291
Factors influencing fatty acid and hydrocarbon composition of sedimenting particles in the northeastern Adriatic Sea M. Najdek (Rovinj, Croatia) . . . . .	299
Organic carbon distribution in the surface sediments of the Sea of Marmara and its control by the inflows from adjacent water masses M. Ergin, M.N. Bodur, D. Ediger, V. Ediger and A. Yilmaz (Erdemli, Turkey) . . . . .	311
Contribution of humic substances to the dissolved nitrogen pool in the Greenland Sea R.J. Lara, U. Hubberten and G. Kattner (Bremerhaven, Germany) . . . . .	327
Temperature and salinity dependence of seawater–KCl junction potentials J. Bagg (Parkville, Vic., Australia) . . . . .	337
Determination of dissolved oxygen in seawater by direct spectrophotometry of total iodine S.-C. Pai, G.-C. Gong and K.-K. Liu (Taipei, Taiwan) . . . . .	343

*Letter Section**Colloid aggregation in seawater*

M.L. Wells and E.D. Goldberg (La Jolla, CA, USA) . . . . . 353

*Announcement* . . . . . 359

*Contents of Volume 41* . . . . . 360
